| | | | | | 1148 | | |
| | | | | | 5672 | 3 | |

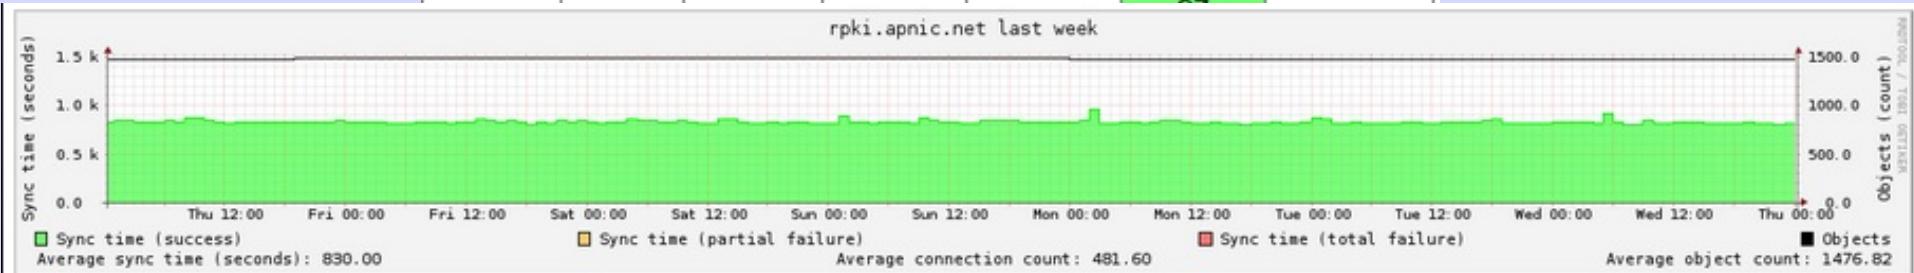

rpkি.ripe.net over last week

APNIC

APNIC is operational and moving forward,
moving to RIPE's GUI(APNICは本番運用中で
前進している。RIPEのGUIシステムへ移行中)

| Stale CRL or manifest | Tainted by stale CRL | Tainted by stale manifest | Tainted by not being in manifest | Non-rsync URI in extension | Object accepted | rsync transfer succeeded |
|-----------------------|----------------------|---------------------------|----------------------------------|----------------------------|-----------------|--------------------------|
| | | | | | | 480 |
| | | | | | 478 | |
| | | | | | 478 | |
| | | | | | 478 | |
| | | | | | 67 | |

ARIN, the Lawyer RIR

ARIN is doing their best to make RPKI deployment very hard. Run by lawyers.

(ARINはRPKIの普及にベストを尽くしている。ルール重視の運営。 。 。 。)

| Nonconformant X.509 issuer name | Nonconformant X.509 subject name | rsync partial transfer | Stale CRL or manifest | Tainted by stale CRL | Tainted by stale manifest | Tainted by not being in manifest | Non-rsync URI in extension | Object accepted | rsync transfer succeeded |
|---------------------------------|----------------------------------|------------------------|-----------------------|----------------------|---------------------------|----------------------------------|----------------------------|-----------------|--------------------------|
| | | | | | | | | | 2 |
| 2 | 2 | | | | | | 61 | | |
| | | | | | | | 61 | | |
| 1 | 1 | | | | | | 61 | | |
| 75 | 75 | | | | | | 75 | | |
| 78 | 78 | | | | | | 258 | 2 | |

AFRINIC & LACNIC

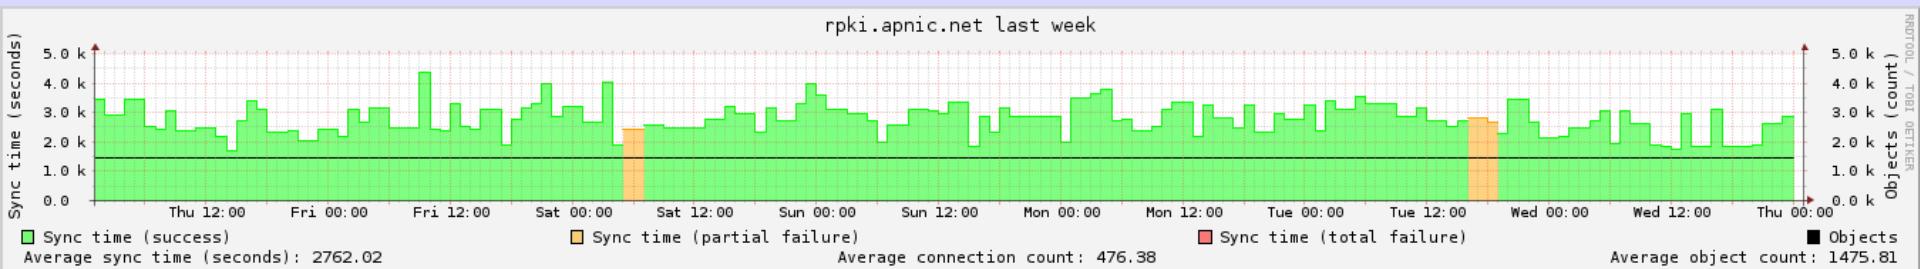

| Test | Tainted by not being in manifest | Non-rsync URI in extension | Object accepted | rsync transfer succeeded |
|------|----------------------------------|----------------------------|-----------------|--------------------------|
| | | | | 26 |
| | 1 | 34 | | |
| | | 34 | | |
| | 1 | 34 | | |
| 4 | | 10 | | |
| 4 | 2 | 112 | 26 | |

| Tainted by stale manifest | Non-rsync URI in extension | Object accepted | rsync transfer succeeded |
|---------------------------|----------------------------|-----------------|--------------------------|
| | | | 2 |
| | | 215 | |
| | | 215 | |
| | | 215 | |
| | | 98 | |
| | | 743 | 2 |

LACNIC Has Been Working Hard on RPKI!
(LACNICはすごくがんばってる)

Fetch Problems

Unlike JaNOG 30, APNIC is the only RIR
Where we Had Data Fetching Problems
(JANOG30の後、APNICはRIRでROAの
データ配布でトラブルがあった)

And the Software Uses the Older Data
Until it Gets Newer Data
(でもソフトウェアは古いデータでちゃんと動
いてる)

JPNIC
Has an RPKI
Certification
TestBed
(jpnicはRPKIテスト環境を作った)
Come Join!
(参加してください！)

Router Origin Validation (RouterでのOrigin AS検証)

- Cisco IOS - solid in 15.2
- Cisco IOS/XR - shipped in 4.3.2
- Juniper - shipped in 12.2
- AlcaLu - in development

RPKI Implementations

(RPKIの実装)

- RIPE/NCC - CA (partial closed) & RP (partial open)
- APNIC - CA only - Closed Source
- RTRlib/Berlin - RP only - Open Source
- BBN - RP Only - Open Source
- RPKI.NET - CA & RP - Open Source

Today - RPKI.NET (RPKI.netソフトの現状)

- Open Source BSD License
- CA - Hosted and Delegated Models, GUI
- RP - RPKI-RTR, NOC Tools, IRR Gen
- FreeBSD, Ubuntu, Debian, ... Packaged
(docs still catching up)

Recent Hackathons (これまでのハッカソン)

- JaNOG January - LIRs bring up Relying Party.
Few Attended, Most Succeeded
- JPNIC 20 Feb - RP only, 3 ISPs were successful
- APRICOT February - TW, & KR have CAs in internal test
- Beirut March - 18 LIRs as RPs
- AfNOG June - 17 RPs
- SGNOG June - many RPs
- JaNOG July - 14 LIRs, still hacking!

JPNIC is
Working Hard!

(JPNICはすごく
がんばっている)

You Can Issue ROAs For Your Prefixes

(あなたのPrefixでROAが発行できる)

labuser04

Resources

| Resource | Valid Until | Parent |
