

# Highlights from the past JANOG meetings (URL List)

- [Routing Security](#)
- [Public NTP](#)
- [Infra in Japan](#)
- [SDN/NFV Case Studies](#)
- [DC Network](#)
- [Experimental](#)
- [New Trends](#)

## Routing Security

- [A story of BGP route hijacking](#) (JANOG36, Japanese)
- [Let's start RPKI with IJ/AS2497](#). (JANOG47)
- [peerlock implementation review working group report](#) (JANOG47)

## Public NTP

- [Current status and issues of public NTP service in Fukuoka Univ.](#) (JANOG41, Japanese)
- [Current status and issues of public NTP service in Fukuoka Univ.](#) (JANOG47, Japanese)

## Infra in Japan

- [Did the Internet in Japan really become more robust? / \(Japanese version\)](#) (JANOG44)
- [IPv6 availability on mobile networks / \(Japanese version\)](#) (JANOG45)
- [DOCOMO's Approach toward the Expansion of IPv6 Address Usage in Cellular Networks / \(Japanese version\)](#) (JANOG48)
- [The Introduction to the confederation of KESHIKARAN networks / \(Japanese version\)](#) (JANOG47)

## SDN/NFV Case Studies

- [Introduced network controller to OCN / \(Japanese version\)](#)(JANOG48)
- [High Functional Cloud NFV System Design and Implementation at LINE Cloud](#) (JANOG48)
- [The 5 years journey of NFV in KDDI fixed VoIP network / \(Japanese version\)](#)(JANOG49)

## DC Network

- [What are you doing to operate Clos Network Topology? / \(Japanese version\)](#) (JANOG49)

## Experimental

- [Measuring Internet Latency with SR-MPLS Egress Peer Engineering / \(Japanese version\)](#) (JANOG48)
- [BGP peering over IX with RFC5549 / \(Japanese version\)](#) (JANOG49)

## New Trends

- [Let's talk about QUIC / \(Japanese version\)](#) (JANOG49)
